

# pH Sensor – Industrial- HF Series

## MS pH 22 / HF / Pt100

### Industrial pH Sensor/Electrode

#### Technical Specification

pH Range	: 0-14
Temp Range	: 0-100°C
Ref. Type	: AgCl
Junction Type	: Porous Teflon
Diameter	: 150x25.9mm
Process Connection	: 3/4" NPT
Combination	: Yes
Body Type	: Ryton
Pressure	: 100 PSI
Temp.Compensation	: Pt 100
Cable Length	: 5 mtrs

**NOTE : Life Time of pH Sensors will be depends on HF Concentration as given below**  
3% ---- may be one month,  
less than 3%, may be more than ----- 1 month  
less than 2%, may be more than ----- 2 month
